Question

We hope you are well. Regarding NOFO # 2096-0425, we saw the opportunity has an award range of \$30-49k with only one award expected to be given, and total program funding of \$494k. Can you clarify the difference between award range, # of awards and funding total?

Answer

In the NOFO instructions, it states “A total of \$494,000 in funding is available through this solicitation. Applicants may request a minimum of \$30,000 and a maximum of \$49,000 in grant funding. Only one application will be chosen for funding.” The award range is amount that the applicant will be awarded. This NOFO is a re-release, so there will only be one applicant funded for a maximum amount of \$49,000.
