# Notice of Funding Opportunity

## SCIP: FRO Outreach and Training

### A. Program Description

The Federal Byrne State Crisis Intervention Program (SCIP) was created through the 2022 Bipartisan Safer Communities Supplemental Appropriations Act (Pub. L. No. 117-159, 136 Stat. 1313, 1339); 28 U.S.C. 530C. SCIP provides funding to “implement state crisis intervention court proceedings and related programs or initiatives, including, but not limited to, extreme risk protection order programs that work to keep guns out of the hands of those who pose a threat to themselves or others, mental health courts, drug courts, and veterans treatment courts.”<sup>1</sup> The U.S. Department of Justice Office of Justice Programs’ Bureau of Justice Assistance administers the formula-based grants to each state. The Illinois Criminal Justice Information Authority (ICJIA) administers Illinois SCIP funds.

In Illinois, extreme risk protection orders are referred to as firearms restraining orders (FROs). FROs are civil orders that allow for temporary removal of firearms, ammunition, firearm parts that can be assembled into a firearm, and surrender of firearm owner’s identification (FOID) card when an individual is deemed a potential danger to themselves or others.<sup>2,3</sup> Additional information on FROs can be found [here](#).

In accordance with SCIP guidance, ICJIA convened a SCIP Advisory Committee to establish funding priorities and to approve a SCIP plan, viewable [here](#). The Advisory Committee established the following three priorities for the use of federal SCIP funding, centering community voice and incorporating research and evaluation throughout:

1. FRO training for system partners
2. FRO compliance and enforcement
3. Solicitation to support local government FRO implementation, treatment linkages, develop community infrastructure, and follow-up

#### 1. Purpose

The purpose of this NOFO is to award one or more state agencies grant funding to develop and implement effective and equitably targeted FRO public information, outreach, and training strategies. This NOFO will focus on implementing strategies for:

- FRO partner agencies, including court, law enforcement and behavioral health providers
- Potential FRO petitioners, particularly those with barriers to filing FROs and lacking supportive services
- Potential FRO individuals and organizations who may have contact with persons at risk of harming themselves and others
- The general public

Applicants may propose a pass-through model in which they subaward grants to trusted messengers to both help craft targeted, meaningful, effective content and facilitate its delivery (see Section D.6.h. Proposed Subawards and Subcontracts for additional information).

These funds are intended to address one of the key priorities identified by the SCIP Advisory Committee: stakeholder awareness and training is essential to ensure the safe, equitable, and effective implementation and execution of FROs. Furthermore, this funding is intended to help address inequities in support and use of FROs and the importance of proper messaging in driving FROs uptake and proper usage.

## ***2. Program Design***

Programs funded through this NOFO shall deliver FRO education and/or training to targeted groups. Program services should be accessible geographically throughout the state of Illinois. Applicants shall address one or more of the following elements of program design in the application's Program Narrative. It is not expected that applicants incorporate all goals and methods in their proposal. Applicants may propose additional goals, methods, and target groups. Applicants are expected to propose and support uses of grant funds based on their expertise and demonstrated needs.

Programs shall address one or more of the following goals:

- Increase awareness of FROs as a tool among practitioners and potential petitioners
- Increase effective implementation and execution of FROs among practitioners
- Address inequities in support and use of FROs among those at higher-risk of harm to self or others and/or groups that may have barriers impacting support and use
- Provide clarity regarding FROs and the appropriateness of an individual for an FRO
- Promote statewide consistency in FRO implementation
- Leverage existing efforts and apply best practices

Programs shall utilize one or more of the following methods:

- Training FRO practitioners in person, virtually, or hybrid
- Creating content for and distributing fact sheets, brochures, pocket cards, posters, webinars, crisis hotlines, legacy media (e.g., newspapers, magazines, trade publications, radio) engagement, and/or social media (e.g., LinkedIn, YouTube, Facebook, TikTok) outreach
- Generating reference documents with considerations a person may make when determining available and appropriate responses to a person at risk of harm to self or others with a firearm(s)
- Obtaining and curating curriculum and other content for FRO practitioners
- Implementing train-the-trainer models to embed expertise regarding implementing FROs within an agency, organization, or other entity
- Recording training videos for distribution among FRO practitioners
- Publishing best practices regarding FROs

## **FRO Stakeholder Groups**

For the purpose of this NOFO, stakeholder groups are defined as potential FRO practitioners, groups that may have a greater need for FROs, and groups that may have barriers impacting FRO support and use. Applicants will be asked to describe their proposed program's target group(s) and provide supporting data, if necessary.

Potential FRO practitioners may include professionals directly involved in the FRO process, as well as professionals who work with people who may be at risk of harm to themselves or others and, more broadly, are part of the state and local FRO infrastructure. These professionals include, but are not limited to:

- Law enforcement officers
- Judiciary and court staff
- Prosecutors
- Mental and behavioral health professionals
- Other first responders
- School administrators
- Community based organization staff (e.g., mental health, domestic violence, suicide prevention, victim services, violence prevention, legal aid)
- Staff at other locations where a person experiencing a suicidal crisis, or their family, may seek help (e.g., physicians, mental health professionals, social workers and other staff in hospital emergency departments, crisis intervention clinics, hotline centers, urgent care clinics)

A number of groups of potential FRO petitioners are at a higher risk of harm to themselves or others. Others meet barriers impacting support and use of FROs. Examples include, but are not limited to:

- American Indian/Alaska Native males<sup>4,5</sup>
- Black and Hispanic/Latino people<sup>6</sup>
- Limited English Proficient (LEP) people<sup>7</sup>
- People living in rural areas<sup>8,9</sup>
- Veterans<sup>10</sup>
- White males<sup>11,12</sup>

- Other groups more at risk of harm to self or others with a firearm(s) (e.g., persons with dementia, others that have higher rates of firearm suicide)<sup>13</sup>
- Other groups with higher distrust in the criminal justice system
- Other groups with accessibility issues impacting FRO usage (e.g., not digitally literate<sup>14</sup>)

### **3. Program Requirements**

To apply for funds, applicants must complete the Program Narrative detailing an outreach and training plan. Applicants should consider and address the following elements in their outreach and training plan as it relates to their proposed program.

#### **Planning and Content Development**

- Assessment of the landscape and identification of gaps in need, substance, and accessibility
- Outline of program goals (e.g., increase general awareness, contribute to greater use of FROs across the state, create a comprehensive plan to reach potentially vital partner agencies, build community awareness through targeted messaging and trusted messengers)
- Collaboration plan with other content delivery providers, partners, and technical assistance providers in the field, if necessary
- Communication, education, and awareness strategy
- Process to gather input from targeted groups
- Desired format and communication channels

#### **Implementation and Distribution**

- Outline of the training/outreach methods, including experiential (e.g., social simulation exercises) and different platforms (in-person, virtual, and/or hybrid) based on preferences and to provide increased opportunities and coverage statewide and how they might address existing barriers to participation.
- Process for a continuous feedback loop to gather information and input from stakeholders and participants

#### **Assessment and Reporting**

- Tools to assess and evaluate effectiveness with changes in knowledge, behavior, and attitudes, and satisfaction

#### **Coordination**

---

<sup>13</sup> [Firearms and Dementia: Clinical Considerations - PMC \(nih.gov\)](#)

<sup>14</sup> [Home - National Digital Inclusion Alliance](#)

Coordination with organizations who have received ICJIA funds for similar purposes should be considered throughout all elements of program design. Thought should be given to avoid duplication of similar outreach and trainings among the same stakeholder groups. ICJIA will work with selected applicants to foster coordination efforts and may propose periodic coordination meetings among grantees have receiving funds for similar purposes.

#### 4. Goals and Performance Metrics

Funded programs will be required to submit quarterly periodic performance reports that will minimally include the required performance metrics detailed below. Applicants may define additional objectives and performance to reflect project performance. Quarterly performance reporting will also include narrative information and may include additional required Department of Justice performance measures.

## **5. Priorities**

SCIP Advisory Committee prioritized FRO training for system partners with this funding opportunity.

This funding opportunity will also address the goal of the BJA FY 2022-2023 Byrne State Crisis Intervention Program funding to support state crisis intervention court proceedings and related programs or initiatives, including FRO programs.

## **6. Evidence-Based Programs or Practices**

Applicants are strongly urged to incorporate research-based best practices into their program design, when appropriate. Applicants should identify the evidence-based practice being proposed for implementation, identify and discuss the evidence that shows that the practice is effective, discuss the population(s) for which this practice has been shown to be effective, and show that it is appropriate for the proposed target population.

Applicants are also urged to leverage existing resources related to extreme risk protection order/FRO public information, outreach, and training, such as:

- [Ad Council Research Institute Extreme Risk Protection Orders \(ERPOs\) Study](#)
- [Everytown for Gun Safety and Johns Hopkins Center for Gun Violence Solutions' Promising Approaches for Implementing Extreme Risk Laws: A Guide for Practitioners and Policymakers](#)
- [National Criminal Justice Association \(NCJA\) Byrne SCIP Training and Technical Assistance](#)

- [American Academy of Pediatrics Gun Safety Campaign Toolkit](#)
- [Hospitals United Campaign](#)
- [Everytown for Gun Safety Be SMART Secure Gun Storage Campaign](#)
- [End Family Fire Campaign](#)

Education and training content should be customized to the targeted group(s). It should include an emphasis on equity throughout and engagement with practitioners and community members impacted by gun violence. Their perspectives should be embedded in the program design. Content should include discussion of how implicit bias—based on race, racism, ethnicity, gender, sexual orientation, gender identity, religion, language proficiency, and classism—may influence decision-making on whether to file an FRO petition and best practices for recognizing and countering these biases. Applicant should engage trusted messengers to help craft targeted, meaningful, effective content and facilitate its delivery. Public awareness should focus on promoting FROs to prevent tragedies before they happen.

## **B. Funding Information**

### ***1. Award period***

Grant awards resulting from this opportunity will have a target period of performance of December 1, 2024 to November 30, 2025 (12 months). Additional funding of up to 24 may be awarded after the initial funding period, contingent upon satisfactory performance and availability of funds. Awarded applicants may receive up to 36 months of funding support for their programs.

### ***2. Available Funds***

A total of \$655,741 in funding is available through this solicitation. Applicants may request a minimum of \$250,000 and a maximum of \$655,741 in grant funding.

Agreements that result from this funding opportunity are contingent upon and subject to the availability of funds.

## **C. Eligibility Information**

Before applying for any grant, all entities must be registered through the Grant Accountability and Transparency Act (GATA) Grantee Portal at [www.grants.illinois.gov/portal](http://www.grants.illinois.gov/portal) and in Good Standing for all pre-qualification requirements. During the open application period, a pre-qualification verification is performed in the GATA Implementation Website. This includes checking SAM.gov registration, Illinois Secretary of State standing, and status on Illinois Stop Payment List. The GATA Portal will indicate a “Good Standing” status or state the issue and steps on how to achieve “Good Standing”. Proposals from applicants that do not meet all pre-qualification requirements by the NOFO close date will not be accepted.

Applicants are also required to submit and obtain approval of a financial and administrative risk assessment utilizing an Internal Controls Questionnaire (ICQ) before execution of the grant agreement. Delay in obtaining ICQ approval will result in a delay in grant execution.

## **1. Eligible Applicants**

State government entities are eligible for this funding. Applications may not be submitted by another entity on behalf of an eligible agency.

Grant recipients may subaward SCIP funds to local governments and non-profits to implement funded programs, but they must comply with ICJIA subaward standards requiring fiscal and programmatic monitoring of subaward agencies.

Applicants must be pre-qualified to do business with the State of Illinois.

## **2. Cost Sharing or Matching**

There is no cost sharing or match requirement for this program.

## **3. Indirect Cost Rate**

In order to charge indirect costs to a grant, the applicant organization must either have an annually negotiated indirect cost rate agreement (NICRA) or elect to use a standard *de minimis* rate. There are three types of allowable indirect cost rates:

- a) Federally Negotiated Rate. Organizations that receive direct federal funding, may have an indirect cost rate that was negotiated with the Federal Cognizant Agency. Illinois will accept the federally negotiated rate.
- b) State Negotiated Rate. The organization may negotiate an indirect cost rate with the State of Illinois if they do not have a Federally Negotiated Rate. If an organization has not previously established an indirect cost rate, an indirect cost rate proposal must be submitted through the State of Illinois' centralized indirect cost rate system in the GATA Grantee Portal. If an organization previously established an indirect cost rate, the organization must annually submit a new indirect cost proposal through the GATA Grantee Portal system within the earlier of: six (6) months after the close of the grantee's fiscal year; and three (3) months of the notice of award.
- c) De Minimis Rate. An organization that has never negotiated an indirect cost rate with the Federal Government or the State of Illinois is eligible to elect a *de minimis* rate of 10% of modified total direct cost (MTDC). Once established, the *de minimis* Rate may be used indefinitely. The State of Illinois must verify the calculation of the MTDC annually in order to accept the *de minimis* rate.

Grant fund recipients are required to complete the indirect cost rate proposal process every fiscal year. If you plan to include indirect costs in your budget, please select your indirect cost rate through the GATA Grantee portal prior to submitting your grant documents to ICJIA.

Grantees have discretion and can elect to waive payment for indirect costs. Grantees that elect to waive payments for indirect costs cannot be reimbursed for indirect costs. The

organization must record an election to “Waive Indirect Costs” into the GATA Grantee Portal. Indirect Cost election must be completed annually, for every entity’s fiscal year. More information regarding the indirect cost election process can be found [here](#).

## D. Application and Submission Information

- c) Continue to maintain an active SAM registration with current information while it has an active award or application under consideration. ICJIA may not make a federal pass-through or state award to an applicant until the applicant has complied with all applicable SAM requirements. If an applicant has not fully complied with the requirements by the time ICJIA is ready to make an award, ICJIA may determine that the applicant is not qualified to receive an award, and may use that determination as a basis for making a state award to another applicant.

- Conference, meeting, and training costs

- f) State Travel Guidelines. travel costs charged to ICJIA must conform to State Travel Guidelines, found here: <https://www2.illinois.gov/cms/Employees/travel/Pages/TravelReimbursement.aspx>. Out-of-state hotel rates are based on the General Service Administration (GSA) guidelines found here: <https://www.gsa.gov/travel/plan-book/per-diem-rates>. Applicant agencies with lower cost travel guidelines than the State of Illinois must use those lower rates.
- g) Supplanting. Funds may not be used to supplant state or local funds but must be used to increase the amounts of such funds that would, in the absence of federal funds, be made available. Grant funds must be used to supplement existing funds for program activities and must not replace those funds that have been appropriated for the same purpose. If grant funds will be used for the expansion of an existing program, applicants must explain how proposed activities will supplement, not supplant, current program activities and staff positions. Agencies may not deliberately reduce local, federal, state funds, or other funds because of the existence of these grant funds. A written certification may be requested by ICJIA stating that these funds will not be used to supplant other state, local, federal, or other funds.

Supplanting will be the subject of application review, as well as pre-award review, post-award monitoring, and audit. If there is a potential presence of supplanting, the applicant or grantee will be required to supply documentation demonstrating that the reduction in non-federal resources occurred for reasons other than the receipt or expected receipt of federal funds.

- h) Proposed Subawards and Subcontracts. Applicants may propose to enter into subawards or subcontracts under this award, each of which involve different rules and applicant responsibilities. A subaward carries out a portion of the grant agreement while a contract is often for obtaining goods and services for the grantee's own use. (44 Ill. Admin Code 7000.240). If a third party will provide some of the essential services or develop or modify a product that the applicant has committed to provide or produce, ICJIA may consider the agreement with the third party a subaward for purposes of grant administration.

Applicants must classify each expense in the contractual budget as a subaward or subcontract. The substance of the agreement, not the title or structure of the agreement, will determine whether it is a subaward or a subcontract. Applicants are advised to use the “Checklist for Contractor/Subrecipient Determinations” available at the GATA Resource Library for guidance: <https://gata.illinois.gov/resources.html>.

Applicants are required to justify their use of subawards and explain their capacity to serve as “pass-through” entities in the program narrative. Applicants will monitor subaward compliance with grant terms, applicable federal and state law including the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Award, 2 C.F.R. Part 200, GATA, and ICJIA policies. Proposed subawards must be identified, if possible, and their roles described in both the program and budget narratives.

For procurement contracts, applicants are encouraged to promote free and open competition in awarding contracts. All subcontracts must comply with federal and state requirements.

### **7. Requirement Prior to Submitting the Application**

1. All applicants must register their organization at the Illinois Grant Accountability and Transparency Act (GATA) Grantee Portal: <https://grants.illinois.gov/portal/>.

## ***2. Review and Selection Process***

All applications will be screened for completeness including GATA pre-qualification and ICQ submission for the current state fiscal year. Applications that are not complete will not be reviewed.

Proposals that pass the screening process will be reviewed by a panel of ICJIA staff and stakeholders. Reviewers will score applications based on completeness, clear and detailed responses to program narrative questions, and inclusion of all mandatory program elements as well as past performance history and/or financial standing with ICJIA. The applicant must demonstrate that costs are reasonable, necessary, and allowable.

Selection of proposals will be based on the scoring criteria outlined in the previous section. Applicants will be selected and offered funding based on the order of their total application score and available funding.

ICJIA reserves the right to reject incomplete proposals, proposals that include unallowable activities, proposals that do not meet eligibility or program requirements, and proposals that are otherwise unsatisfactory. ICJIA may invite applicants to answer clarifying questions and modify budgets that include unallowable or unreasonable costs. NOFO application budgets will be reviewed for allowability, completeness, and cost-effectiveness. ICJIA will perform an in-depth budget review of all grants awarded and may require budget modifications that do not materially change the nature of the program.

Successful applicants whose applications contained unallowable or unreasonable costs may have their awards reduced by the total amount of those costs. Upon applicant acceptance of the grant award, announcement of the grant award shall be published by ICJIA to the GATA portal. ICJIA will submit all selected applications to BJA and ICJIA's Budget Committee for approval. Additional changes to budgets or proposed programs may be required by BJA and/or ICJIA's Budget Committee. Applicants will be notified of BJA's and ICJIA's Budget Committee's decisions.

## **H. Other Information**

The Illinois Criminal Justice Information Authority (ICJIA) is a state agency dedicated to improving the administration of criminal justice. ICJIA brings together key leaders from the justice system and the public to identify critical issues facing the criminal justice system in Illinois, and to propose and evaluate policies, programs, and legislation that address those issues. The statutory responsibilities of ICJIA fit into four areas: grants administration; research and analysis; policy and planning; and information systems and technology.

Section 7 of the Illinois Criminal Justice Information Act grants ICJIA authority “to apply for, receive, establish priorities for, allocate, disburse, and spend grants of funds that are made available by and received on or after January 1, 1983 from private sources or from the United States pursuant to the federal Crime Control Act of 1973, as amended, and similar federal legislation, and to enter into agreements with the United States government to further the purposes of this Act, or as may be required as a condition of obtaining federal funds” and “to receive, expend, and account for such funds of the State of Illinois as may be made available to further the purposes of this Act.” (20 ILCS 3930/7(k), (l))

Neither the State of Illinois nor ICJIA are obligated to make any award as a result of this announcement. The ICJIA Executive Director or designee has sole authority to bind ICJIA to the expenditure of funds through the execution of grant agreements.

This application is subject to the Illinois Freedom of Information Act (FOIA). Any information that the applicant believes should be exempt under FOIA should clearly highlight the information that is exempt, and the basis of the exemption.
