

# ILLINOIS CRIMINAL JUSTICE INFORMATION AUTHORITY FISCAL YEAR 2024 ANNUAL REPORT

*Building equity in Illinois through policy and planning, research and analysis, grant administration, and technology*

## To the Governor and the Honorable Members of the General Assembly:

Delrice Adams

On behalf of the Illinois Criminal Justice Information Authority, I am pleased to present the ICJIA Fiscal Year 2024 Annual Report. This report features the agency's work in Illinois criminal justice policy and planning, grants administration, research, and technology throughout the year.

ICJIA prioritizes equity, fairness, and opportunity across every grant program and project it administers. This year, ICJIA processed more than 820 individual grants under nine federal and 21 state programs, with \$200 million in disbursements to organizations.

ICJIA invested significantly in Illinois' most vulnerable communities, offering a \$35 million Restore, Reinvest, and Renew Program (R3) grant funding opportunity to hyper-local organizations in historically underinvested and under-resourced Black, Latinx, and rural communities. Grants were awarded to almost 90 new organizations in every state region. R3 programs support youth development, civil legal aid, economic development, violence prevention, and reentry services. To date, ICJIA has awarded nearly \$250 million in R3 program grants.

ICJIA continued its support of violence prevention initiatives to create safe communities equitably across the state. During the fiscal year, ICJIA administered nearly \$100 million in violence prevention program funds to organizations across Illinois. This funding supported violence prevention and reduction services, conflict intervention and mediation, and other strategies to reduce gun violence in impacted communities.

ICJIA leveraged its partnership with the Government Alliance for Safe Communities (GASC) to coordinate funding efforts to meet violence prevention needs in Illinois communities. In SFY24, GASC initiated the planning and development of three funding opportunities totaling 4100 million to support capacity building training expansion across Illinois, capacity building for individual organizations providing violence prevention programs, and violence prevention services.

Organizational capacity building is key to the promise of equity. The Institute to Innovate (i2i) is a capacity-building program to help local organizations leverage state funding for programs that build safe communities. i2i helps organizations overcome funding challenges, improve operations, and increase impact. Through i2i, organizations receive training, tools, and resources to build their capacity, secure funding, and achieve their goals. This year, the i2i team collaborated with the Government Alliance for Safer Communities to develop a funding opportunity to create a centralized capacity-building model.

ICJIA conducts research and provides data on various aspects of the criminal justice system. This year's key research activities included data collection and dissemination with various online datasets and tools (accessible at [icjia.illinois.gov/researchhub](https://icjia.illinois.gov/researchhub)) for analyzing crime trends and researching justice system issues. The researchers also lead the Justice Counts program, collecting and publishing comprehensive criminal justice data metrics. Staff also conducted research on deflection programs, which aim to divert individuals with mental health or substance use issues from the criminal justice system. These activities contribute to a better understanding of the Illinois criminal justice system and inform grantmaking and policy decisions.

Lastly, I was honored to represent Illinois and ICJIA at a White House convening on red flag law implementation and the Byrne Justice Assistance Grant State Crisis Interventions Program. Of 21 states with red flag laws, Illinois is one of the six leveraging Bipartisan Safer Community Act dollars to implement laws that help remove guns from individuals with intent to harm. We are grateful that the White House and Vice President Kamala Harris lifted ICJIA's work as a model.

We are grateful for our partnership with the criminal justice community, the legislature, and the public to co-create a vision that meets community public safety needs while advancing equity in our criminal justice system.

A handwritten signature in blue ink that reads "Delrice Adams".

Delrice Adams  
Executive Director

# Mission

Created in 1983, the Illinois Criminal Justice Information Authority (ICJIA) is a state agency dedicated to improving the administration of criminal justice. ICJIA brings together key leaders from the justice system and the public to identify critical issues faced by the criminal justice system in Illinois, and to propose and evaluate policies, programs, and legislation that address those issues. The agency also works to ensure the criminal justice system in Illinois is efficient and effective.

ICJIA's specific powers and duties are detailed in the Illinois Criminal Justice Information Act [20 ILCS 3930 *et. seq.*].

The statutory responsibilities of ICJIA fall under the categories of grants administration, research and analysis, policy and planning, and information systems and technology.

## Grants administration

In the area of grants administration, ICJIA:

- Implements and funds criminal justice and violence prevention programs under the Violence Against Women Act, Victims of Crime Act, Adult Redeploy Illinois, Restore, Reinvest, Renew (R3) Program, and other state and federal grant programs.
- Continually examines operational policies and procedures to ensure equitable and effective grant administration across all programs.
- Develops technical assistance resources to build capacity and infrastructure within local organizations in need of state funding.
- Monitors program activity, ensures accountability, and provides technical assistance to grantees.

## Research and analysis

In the area of research and analysis, ICJIA:

- Publishes research studies that analyze a variety of crime trends and criminal justice issues.
- Acts as a clearinghouse for data and research on crime, crime trends, and the criminal justice system.
- Audits the state central repositories official criminal history record information for data accuracy and completeness.

- Develops and evaluates state and local programs for improving law enforcement and the administration of criminal justice.
- Provides or directs partners to technical assistance opportunities.
- Identifies and provides information about evidence-based and promising practices for implementation by policymakers and practitioners.

## Policy and planning

In the area of policy and planning, ICJIA:

- Develops and implements comprehensive strategies for a coordinated response by the various components of the criminal justice system for crime prevention and control and crime victim assistance using federal funds awarded to Illinois.
- Advises the Governor, Lieutenant Governor, and the General Assembly on criminal justice policies and legislation.
- Convenes groups of policymakers and practitioners to identify and address ongoing concerns of criminal justice officials.
- Participates in initiatives that improve the impact and cost effectiveness of the criminal justice system.

## Information systems and technology

In the area of information systems and technology, ICJIA:

- Improves technological capabilities and infrastructure leveraged by ICJIA and external partners to share research and coordinate state-mandated activities.
- Manages ICJIA website properties and applications, including InfoNet and the Adult Redeploy Illinois data system, to enhance the quality of data that can be used to inform policy and enhance public safety.
- Serves as the sole administrative appeal body for determining citizen challenges to the accuracy of their criminal history records.
- Monitors the operation of existing criminal justice information systems to protect the constitutional rights and privacy of citizens.

# Composition and Board Members

The Illinois Criminal Justice Information Authority is governed by a 25-member board of state and local leaders in the criminal justice community, and experts from the private sector. ICJIA is supported by a full-time professional staff working from the agency's offices in Chicago and Springfield.

ICJIA is led by a chair, who is appointed by the governor from among the Board's members. The Board is required to meet at least four times per year.

With two vacant positions, the current Board comprises 23 members. Members set agency priorities, track the progress of ongoing programs, and monitor the agency's budget. By law, the Board includes the following members serving by statute (or their designees):

- Cook County Board President
- Cook County Circuit Court Clerk
- Cook County Sheriff
- Cook County State's Attorney
- Cook County Public Defender
- Chicago Police Superintendent
- Director, Illinois Department of Children and Family Services
- Director, Illinois Department of Corrections
- Director, Illinois Department of Public Health
- Director, Illinois State Police
- Director, Office of the State Appellate Defender
- Director, Office of the State's Attorney Appellate Prosecutor
- Executive director, Illinois Law Enforcement Training and Standards Board
- Illinois Attorney General

The Governor also must appoint:

- Two individuals who have been incarcerated.
- Four members of the general public.
- A chief of police.
- A sheriff.
- A state's attorney from a county other than Cook.
- A circuit court clerk.
- A public defender from a county other than Cook.

- Opportunities for At-Risk Women Task Force
- Sentencing Policy Advisory Council
- Sex Offender Management Board

# Staff Organization

While ICJIA members set priorities for the agency and monitor their progress, the day-to-day work is carried out by ICJIA staff, who come from a variety of backgrounds and disciplines. At the end of state fiscal year 2024, ICJIA employed 127 employees. As of June 30, 2024, ICJIA's workforce was 67% women, 33% men, 43% Black/African American, 39% White, 9% Hispanic, and 8% Asian.

# Government Alliance for Safe Communities

The Government Alliance for Safe Communities violence prevention partnership is comprised of State of Illinois, Cook County, and City of Chicago leaders.

**I**CJIA entered into a new violence prevention partnership during the fiscal year. For the first time, the State of Illinois, Cook County, the Chicago Mayors Office of Community Safety and the Chicago Department of Public Health have partnered in a Government Alliance for Safe Communities (GASC) to reduce violence.

## How it Started

GASC, formerly known as the Intergovernmental Partnership for Violence Prevention, was established in 2021 to maximize the impact of federal COVID-19 American Rescue Plan funding coming to the greater Chicago region. In response to the rise in gun violence experienced nationally and locally, the State of Illinois, Cook County, and the City of Chicago came together and identified community safety as the most urgent priority to collectively address.

Since its inception, the GASC has successfully stewarded a historic level of investment of nearly \$350 million in public funding for community safety.

## How it Works

GASC has met continuously to coordinate investments, align on data collection practices, and focus on capacity building. GASC engages key partners in research and philanthropy to develop sustainable strategies to fund community safety initiatives.

## Why it Matters

GASC exists because active coordination, collaboration, and communication within government are essential to effectively and sustainably reduce gun violence and increase community safety in the neighborhoods and municipalities most impacted by the gun violence crisis in our region.

## Looking forward

In SFY24, GASC initiated planning and development of three funding opportunities totaling \$100 million to expand capacity building training across Illinois, offer capacity building to small organizations providing violence prevention programs, and support violence prevention services.

# Institute to Innovate (I2I)

The Institute 2 Innovate (i2i) Institute to Innovate (i2i) is ICJIA's capacity-building hub, dedicated to empowering community-based organizations across Illinois to overcome barriers to funding, strengthen operational structures, and achieve sustainable growth.

Many small organizations with innovative ideas for serving their communities face challenges in applying for and managing grant funds. Through i2i, ICJIA provides these organizations with the tools, training, and resources necessary to build their capacity, secure funding, and expand their impact. Fifty organizations have received technical assistance from this program.

## Program Structure and Tiers of Eligibility

Organizations participating in i2i are divided into tiers based on levels of capacity. Levels range from organizations with no funding support, emerging, smaller organizations developing promising violence prevention programs, and R3 grant organizations struggling with organizational capacity.

## Capacity-Building Approach

i2i's approach is implemented in two phases. In Phase I, trainers provide intensive capacity-building workshops and individualized coaching on strategic planning, grant writing, financial management, organization building and developing collaborative relationships.

In Phase II, trainers provide sustained support. Participants receive ongoing one-on-one coaching and monthly workshops tailored to address emerging needs and advanced topics.

## FY24 Milestones and Achievements

### *Cook County Cohort Launch and Graduation*

In March 2024, i2i launched its second cohort, comprising a dynamic group of Cook County-based organizations committed to improve their capacity to serve their communities. The following organizations graduated from the program in September 2024:

- A House in Austin
- Free Root Operation
- Healing to Action
- Jehovah Jireh Ministry
- Light of Loving Kindness
- Lion's Pride Mentoring, Inc.
- One Solution Global

- Parenting for Nonviolence (P4NV)
- TA98
- Tisdale-Woods Foundation

### *Capacity Building Impact and Funding Success*

i2i continues to make a tangible impact on participating organizations. Cohort I partners have collectively received \$1.5 million in capacity building grant funding to advance their organizational development and programmatic goals. ICJIA also expanded the I2I coaching team, with four new trainers. Finally, I2I collaborated with the Government Alliance for Safer Communities to develop a funding opportunity to create a centralized capacity-building model.

# Federal and State Grants

**T**he Federal & State Grants Unit (FSGU) administers grant programs overseen by ICJIA. Authorized to receive and disburse grant money, ICJIA also is responsible for assuring compliance with federal and state regulations.

ICJIA began administering federal grants in 1985, following the passage of the Justice Assistance and Victims of Crime Acts. In SFY24, 35 staff members processed 821 individual grants under 21 state and nine federal programs, with \$200 million in disbursements for the fiscal year.

FSGU staff perform a variety of functions in developing, implementing, and monitoring state and local programs. These tasks include planning, program development, technical assistance, coordination, and administration. Staff also develop notices of funding opportunity that prioritize equity and breaking barriers to smaller organizations with limited capacity for managing grant funds.

The 2020-2024 Statewide Violence Prevention Plan serves as a framework for grantmaking that can create more resilient, safe, and thriving communities. The plan supports the Governor's goals of breaking the cycles of violence caused by years of failed criminal justice policies, overincarceration, and economic disinvestment in minority communities. The 2025-2029 Statewide Violence Prevention Plan will be released in SFY25.

ICJIA administered the following state and federal grant programs in SFY24. Most federal awards to states may be spent over a three-year period. State and federal funds disbursed during the fiscal year may differ from the total designated to each program.

ICJIA Executive Director Delrice Adams and Legislative Affairs Director Jacob Derrick met with House Speaker Emanuel "Chris" Welch for a meaningful discussion on bringing equity, fairness, and opportunity to communities across Illinois. October 2023.

*In SFY24, 35 staff members processed 821 individual grants under 21 state and nine federal programs, with \$200 million in disbursements for the fiscal year.*

# Violence Prevention Initiatives

Much of ICJIA's work is aimed at reducing violence and giving historically under-resourced communities the resources they need to rebuild and thrive. These efforts fall within three key state capacities:

- **Equity and Inclusion:** ICJIA prioritizes equity, fairness, and inclusion in all violence reduction initiatives, helping to address systemic disparities that contribute to violence.
- **Program Implementation:** ICJIA continually administers violence prevention program grants and interventions that are based on best practices, research, and community needs.
- **Investment in Youth:** Illinois has recognized the significance of providing opportunities for at-risk youth. By investing in education, mentorship, and job training programs, the state has aimed to divert young individuals away from paths that might lead to violence.

ICJIA manages a number of violence prevention grant programs and initiatives to support and create safer, more resilient communities.

## Grants

### American Rescue Plan Grants

The American Rescue Plan Grants are used to support violence prevention initiatives and respond to other negative economic impacts of the COVID-19 public health crisis. Staff disbursed about \$66 million in state funds to 170 organizations in SFY24.

### Community-Based Violence Intervention and Prevention Services Programs

Community-Based Violence Intervention and Prevention (CBVIP) services programs support community coalition building to engage service providers, state and local government agencies, law enforcement personnel, and others to ensure that service providers and community members are aware of violence prevention resources available to the community. These grants encourage collaborative partnerships to ensure clients' immediate needs are met and support pro-social activities for the community.

ICJIA disbursed \$10.8 million to 48 agencies to support CBVIP during the fiscal year (*See page 13*).

## American Rescue Plan Act Grants

### State Crisis Intervention Program

The State Crisis Intervention Program (SCIP) aims to improve the implementation of firearm restraining orders and related programs that work to keep guns out of the hands of those who pose a threat to themselves or others.

In SFY24, ICJIA convened a SCIP Advisory Committee to develop program priorities and a funding plan. SCIP grants will support training for criminal justice system personnel on firearm restraining orders

and efforts to support compliance and enforcement. ICJIA also released two notice of funding opportunity offering SCIP funds to develop and implement targeted public information on firearm restraining orders, outreach, training, and local implementation support.

### Street Intervention Program

Street Intervention Program funds provide sub-awards to agencies for outreach services, to mediate and intervene with conflicts, and to provide other supports to reduce the shooting and homicide incidents in high need communities. ICJIA disbursed \$5.7 million to Metropolitan Family Services to support its Community Partnering 4 Peace program during the fiscal year.

### Violence Prevention & Reduction Program

The Violence Prevention and Reduction (VPR) program provides sub-awards to agencies for violence prevention and reduction services and strategies, to mediate and intervene with conflicts, and provide other supports to reduce the shooting and homicide incidents in high need communities. VPR funds are appropriated to ICJIA to be passed through to specific agencies.

ICJIA disbursed \$17.3 million in pass-through VPR funding to 33 organizations during the fiscal year (See page 14).

### Other violence prevention funds

ICJIA also disbursed:

- \$6 million to support the Acclivus Violence Prevention Program.
- \$1.5 million to Live Free Chicago to support trauma healing resource center services.
- \$111,617 to Kankakee County State's Attorney's Office to support its violence prevention program.

## Enhancing and Expanding Reentry Services in Illinois

**Shenita Jackson, ICJIA Returning Residents Coordinator**, discusses entrepreneurship for returning citizens at Illinois Department of Corrections-Pontiac.

ICJIA is committed to transforming reentry from a process to a pathway of dignity, equity, and systemic change. ICJIA's recent reentry efforts highlight a collaborative approach to supporting justice-impacted individuals and their families, ensuring equitable access to resources statewide.

In SFY24, ICJIA launched the Interagency Workgroup of Reentry Stakeholders to foster agency collaboration. This initiative brings together diverse expertise to develop a unified approach to reentry services in Illinois.

Key objectives include establishing a cohesive framework for enhancing reentry initiatives, supporting individuals and families across all reentry touchpoints, including pre-arrest, deflection, diversion, pre-trial, pre-release, and post-release stages, and maximizing resources through joint funding initiatives.

This initiative underscores ICJIA's dedication to innovative, inclusive, and equitable reentry strategies.

- \$610,983 to support the Illinois Law Enforcement Alarm System Less Lethal Alternatives Program.
- \$3,808,660 to Laureus Sport for Good Foundation of America for a violence prevention program.
- \$243,583 to the Blessed Child for a violence prevention program.

# Restore, Reinvest, Renew (R3)

The Cannabis Regulation and Tax Act legalized adult-use cannabis in Illinois on Jan. 1, 2020. In addition to limiting enforcement and prosecution of cannabis-related offenses and providing a source of state revenue, the Act established the Restore, Reinvest, and Renew (R3) program.

Administered by ICJIA, the R3 program directs a significant portion of cannabis revenue toward building equity in communities that have been ravaged by violence and disproportionately impacted by criminal justice system overuse and economic disinvestment. The program supports organizations that offer evidence-based, promising, or innovative programming in the following priority areas: civil legal aid, economic development, community reentry, violence prevention, and youth development.

ICJIA received a \$125 million state appropriation to administer R3 in SFY24. ICJIA disbursed \$55 million in R3 funds to 189 organizations initiating R3 programs in their communities.

To administer this unique program, ICJIA developed innovative new strategies to improve traditional state grant fund administration, increasing access and availability to historically underinvested, underresourced Black and Brown communities.

The SFY24 grant opportunity prioritized funding for grassroots organizations with operating budgets of less than \$2 million. This priority was set to level the playing field for smaller, less experienced organizations to compete with larger organizations that have the resources to apply for and receive funding from multiple sources.

To address community feedback on barriers to securing R3 grants, ICJIA continued efforts to build capacity within smaller organizations. ICJIA offers a host of training videos and courses with information needed to successfully apply for grant funding and become equipped to properly manage a grant. Training covers grant process navigation, budget creation, how to write a successful program narrative, and Grant Accountability and Transparency Act compliance. In addition, ICJIA developed the Institute 2 Innovate (i2i), a new capacity-building hub for statewide community-based organizations.

For more information and to view a map of areas eligible for R3 funding, please visit [R3.illinois.gov](https://icjia.illinois.gov).

# Adult Redeploy Illinois

**A**dult Redeploy Illinois (ARI) was created by the Illinois Crime Reduction Act of 2009 to increase community-based alternatives to incarceration. Research shows that such local programs are more effective at reducing recidivism, improving lives, and being less expensive to taxpayers.

ARI provides grants to local jurisdictions to expand community corrections capacity and offer evidence-based interventions that promote client rehabilitation and accountability. In exchange for the funds, ARI grantees, or sites, agree to reduce the number of people they send to the Illinois Department of Corrections. ARI also fosters a peer learning community among grantee sites to share best practices across the network by convening annual all-site summits and launching the ARI Training, Technical Assistance, and Development program in 2024.

ICJIA received a \$13 million state appropriation in FY24 to administer ARI. The ARI Oversight Board approved funding for 27 sites serving 45 counties during the fiscal year. Together, these sites provided intensive community-based supervision and services to more than 2,500 individuals who were otherwise facing prison. The investments made represent significant cost savings: typical ARI intervention costs on average \$5,000 compared to the FY24 incarceration cost per capita of nearly \$49,300.

ARI programs seek to reduce recidivism by addressing the behavioral health issues, including substance use disorder and mental illness, underlying individuals' involvement in the criminal legal system. Sites determine how they will utilize ARI funds based on local needs and existing capacity. Many sites fund problem-solving (drug/mental health/veterans) courts, while others enhance the type and intensity of probation services and supports, or a combination of both approaches.

ARI also aims to develop an equitable community corrections system through access to interventions that target individuals' needs and leverage their assets. Equity, inclusion, and access are core values of the program. In 2020, the ARI Oversight Board adopted a racial equity perspective as part of the program's strategic plan and examined racial equity, disparity, and disproportionality in ARI-funded programs.

To align with best practices, ARI programs use validated tools to assess client risk, needs, and strengths and, based on assessment information, provide individualized case planning, frequent monitoring,

### Illinois Family Violence Coordinating Council

Family violence coordinating councils, at both state and local/circuit levels, establish a forum to improve the institutional, professional, and community response to family violence, including intimate partner abuse, child abuse, abuse against people with disabilities, and elder abuse. Coordinated by the Illinois Family Violence Coordinating Council, the councils engage in education and prevention and coordinate intervention services for victims and perpetrators. ICJIA disbursed \$362,345 to 11 organizations to support local coordinating councils during the fiscal year.

### Safe From the Start

The Safe From the Start Program was initiated to address childhood exposure to violence. The program implements and evaluates comprehensive and coordinated community models to identify and respond to children ages 0 to 5 who have been exposed to violence in the home or community. ICJIA disbursed \$1,233,780 to 12 agencies for Safe From the Start programming during the fiscal year.

### Line Item Grants

In FY24, ICJIA also disbursed:

- \$312,960 to Illinois State Police for SAFE-T Act implementation.
- \$356,010 in Flexible Housing Pool funds to the Center for Housing and Health to support a reentry pilot program.

- \$1,386 to SAFER Foundation.

# Federal Grant Programs

## Federal Grant Programs

### *Building State Technology Capacity*

The Building State Technology Capacity program is open to Victim of Crime Act (VOCA) program administrators, such as ICJIA. The program supports visionary statewide technology programs to enhance victims' access to services, fosters innovation and efficiency in the provision of services, improves the quality of services, and improve the accessibility and responsiveness of victim service organizations.

In SFY24, ICJIA disbursed \$66,496 to support InfoNet, a victim services database. *See page 28 for more information on InfoNet.*

### *Edward Byrne Memorial Justice Assistance Grants*

The Edward Byrne Memorial Justice Assistance Grant Program (JAG) was designed to streamline justice funding and grant administration. The program provides agencies with the flexibility to prioritize and place justice funds where they are needed most. JAG funds may be used for state and local initiatives, technical assistance, training, personnel, and information systems for criminal justice for any one or more of the following purpose areas:

- Law enforcement
- Prosecution and court
- Prevention and education
- Corrections and community corrections
- Drug treatment and enforcement programs
- Planning, evaluation, and technology improvement
- Crime victim and witness programs (other than compensation)

ICJIA disbursed \$8.9 million in federal JAG funds to 39 programs during the fiscal year.

### *Improving Criminal Justice Responses to Domestic Violence, Dating Violence, Sexual Assault, and Stalking Grant Program*

The Improving Criminal Justice Responses to Domestic Violence, Dating Violence, Sexual Assault, and Stalking Grant Program supports the training, adoption, implementation, and evaluation process for the *Illinois Model Protocol for Law Enforcement and Prosecution*:

In SFY24 ICJIA disbursed \$8,310 to Blue Tower Solutions, Inc., \$1,248 to the Center for Prevention of Abuse, and \$1,184 to the Illinois Coalition Against Domestic Violence.

### ***Improving Reentry Education and Employment Outcomes***

The Improving Reentry Education and Employment Outcomes Program is designed to improve corrections-based educational and employment programs that serve justice system-impact individuals during incarceration and throughout their periods of reentry into the community. The program promotes an evidence-based and data-informed approach that will provide meaningful career opportunities, interrupt the cycle of unemployment, and promote reentry success.

In SFY24, ICJIA disbursed \$80,467 to Adler University to support a pilot program to increase access to higher education for individuals who are housed within Illinois Department of Corrections.

### ***Paul Coverdell National Forensic Sciences Improvement Act***

The Paul Coverdell National Forensic Sciences Improvement Act (NFSIA) authorizes funding to improve the quality, timeliness, and credibility of forensic science services for criminal justice purposes. NFSIA funding is directed to crime laboratories and medical examiners' offices based on population and crime statistics. The program permits funding for facilities, personnel, computerization, equipment, supplies, education, and training.

ICJIA disbursed \$22,386 to the Cook County Medical Examiner's Office, \$120,032 to DuPage County, and \$60,486 to the Northeastern Illinois Regional Crime Lab for forensic science initiatives.

### ***Residential Substance Abuse Treatment Program***

The Residential Substance Abuse Treatment Program (RSAT) provides funding for treatment programs in a correctional setting and is available to the Illinois Department of Corrections and Illinois Department of Juvenile Justice. RSAT funds are used to implement residential, jail-based, and aftercare programs.

developing, implementing, and evaluating a plan for training police, prosecutors, judges, circuit clerks, probation officers, and service providers to promote an interdisciplinary approach to sexual assault and domestic violence; and implementing measures to assess the response of criminal justice agencies in Illinois to sexual assault and domestic violence.

ICJIA disbursed \$5.1 million in VAWA funds to support 34 programs in SFY24.

### VAWA Sexual Assault Services Program

The VAWA Sexual Assault Services Program supports the provision of hotline, advocacy, counseling, and outreach services to adults and children at local victim service agencies across Illinois. During the fiscal year, ICJIA disbursed \$118,348 to Family Resources, \$67,244 to A Safe Place, and \$180,719 to LIFESPAN to support human trafficking services. In addition, ICJIA disbursed \$508,823 to the Illinois Coalition Against Sexual Assault for sexual assault services.

requires that priority is given to services for victims of sexual assault, domestic violence, child abuse, and other groups identified by the state as underserved victims of crime.

ICJIA disbursed \$87.8 million in VOCA grant funding in to 110 victim service providers during the state fiscal year. *See page 22 for a list of VOCA disbursements made in SFY24.*

### Violence Against Women Act

The Violence Against Women Act (VAWA) program provides grants to states to improve criminal justice system responses to women who are victims of sexual assault and domestic violence. The program's objectives include providing services to women who are victims of sexual assault and domestic violence;

# Research and Analysis

ICJIA's Research & Analysis Unit leads agency efforts to promote research-supported and data-driven approaches that contribute to improved public safety outcomes. Also known as the *Illinois Statistical Analysis Center (SAC)*, the unit's primary mission is to identify and explore current or emerging criminal and juvenile justice issues and programs that affect the Illinois justice system.

ICJIA research and analysis is conducted to identify evidence-based, promising, and emerging practices to address victim needs, improve public safety practices, contribute to violence prevention, and deflect at-risk individuals from criminal justice system involvement. The results are made available to state, county, and local criminal justice decision-makers to inform their policy discussions and planning. **Visit the Illinois SAC at: [icjia.illinois.gov/researchhub](https://icjia.illinois.gov/researchhub).**

## Research Centers

In SFY24, the SAC's six centers collaborated to make objective information available on key issues so that important policy, program, and funding decisions are based on data and facts rather than general perceptions.

### *Center for Community Corrections Research*

The Center for Community Corrections Research conducts research and evaluation projects on interventions designed to divert individuals from prison; and, to improve reentry for persons returning to their communities after incarceration. The goal is to expand the use of effective community interventions using evaluation, research, and implementation science. The center collects and analyzes a variety of data including administrative, qualitative and quantitative. Center staff publish research and evaluation reports, work in collaboration with external evaluators, and provide research presentations.

### *Center for Criminal Justice Data and Analytics*

The Center for Criminal Justice Data and Analytics continually collects, analyzes, reports on, and disseminates crime and risk factor statistical information for strategic planning, policy decisions, and public education. Center staff offer a repository of these data on the ICJIA website, along with various online tools for data display and analysis. The center provides technical assistance in statistical and research methods, database design and website interface, data analysis, and presentation.

### *Center for Justice Research and Evaluation*

The Center for Justice Research and Evaluation conducts applied research and evaluation projects that examine critical criminal and juvenile justice topics and criminal justice program implementation and outcomes in Illinois. Staff collect data using multiple research methods, conduct advanced statistical analyses, and summarize findings to inform policy and practice.

### *Center for Sponsored Research and Program Development*

The Center for Sponsored Research & Program Development secures experts in the field to conduct research and evaluate programs that inform policy, support evidence-based practices, and guide decision-making. Staff prioritize criminal justice-related programs

and topics viable for evaluation and further research. Researchers are selected through a competitive process and are awarded federal grant subcontracts to conduct studies. The center also provides technical assistance to programs supported with ICJIA-administered grant funds as they refine program objectives, develop data collection tools, and assess program performance.

### *Center for Victim Studies*

The Center for Victim Studies designs and conducts research examining the nature and scope of victimization in Illinois and evaluates programs that address victim needs. Center staff use a variety of research methods and analyses to explore victimization and victim services in order to improve policy, programming, and practice throughout the state. Center staff provide technical assistance to help victim service programs collect data to inform them how to best meet the multifaceted needs of victims. Finally, staff manage InfoNet, a web-based data collection and reporting system. See page X for more information on InfoNet.

### *Center for Violence Prevention and Intervention Research*

The Center for Violence Prevention and Intervention Research reviews scientific literature, designs and conducts studies, and collects and analyzes data on violent crime in Illinois to help inform and enhance the state's criminal justice response to violence through timely research publications, presentations, and discussions. Center staff examine environmental, social, and individual factors that contribute to the occurrence of violent crime and seek collaboration with a diverse set of stakeholders to understand the scope of existing prevention and intervention efforts and guide future strategies.

### **Online Data Applications**

The SAC website hosts to a variety of online datasets and tools to assist in interpreting the data. These tools allow users to research broad issues facing the criminal justice system or simply examine crime trends in a specific Illinois county or regional area. To access the tools, go to [icjia.illinois.gov/researchhub](https://icjia.illinois.gov/researchhub).

### **Justice Counts Grant Project**

ICJIA researchers received a grant from the federal Bureau of Justice Assistance to administer the national Justice Counts program on behalf of Illinois. The goal of Justice Counts is to collect and publicly disseminate a large set of criminal justice data metrics identified

by experts to provide key insights on justice system trends, operations, and outcomes. Collectively, the metrics encompass a wide range of criminal justice sectors: law enforcement, prosecution, defense, pretrial/courts, jails, prisons, and community supervision. The research team is working with partner justice system agencies to assess the current Illinois data landscape and identify data dissemination strategies.

### **Police-Based Deflection Programs**

The National Institute of Justice awarded the RAND Corporation, in collaboration with ICJIA and the TASC Center for Health and Justice, a three-year research grant to conduct a multi-site evaluation of U.S. deflection programs. The research team conducted qualitative interviews with deflection programs in six states on policies, procedures, and lessons learned.

The team also conducted an outcome evaluation of two deflection programs, including one in Illinois. The team published *A Multi-Site Evaluation of Law Enforcement Deflection in the United States*; and *Lake County Illinois Deflection Program Evaluation Finds Reduced Overdoses and Property Arrests: Research Brief*. In addition, the team examined 16 police department policies on deflection in Illinois and published *Guiding Officers to Deflect Citizens to Treatment: An Examination of Police Department Policies in Illinois*.

ICJIA researchers partnered on a multi-site Illinois pilot deflection evaluation project with the Illinois State Police and TASC Inc. Deflection sites predominantly assisted people with behavioral health needs, offering one site for crime victims and another for homeless individuals. The team published *Evaluation of the Development of a Multijurisdictional Police-Led Deflection Program to Assist Victims of Violent Crime*; *Evaluation of the Development of a Multijurisdictional Police-Based Deflection Program in Southern Illinois*; and *Evaluation of the TASC Deflection Academy: Training for Law Enforcement-Led Deflection Program Staff*.

ICJIA also published *Balancing Data Privacy with Access to Health Services and Research: Facilitating Confidential Information Sharing in U.S. Multi-System Collaborations*. The article explored the data privacy issues as they relate to multi-system collaborations for pre-arrest diversion and deflection to treatment and services for those with a substance use disorder.

ICJIA participated in the National Governors Association's Learning Collaborative on Strategies to Support the Development of State-Level Deflection and Pre-Arrest Diversion Initiatives. Four states, including

- **Gun Violence and Communicating Research** at the SEARCH, JRSA, and NCJA Symposium on Justice Information Technology, Policy, Research, and Practice

# ICJIA PUBLICATIONS

ICJIA publishes dozens of research articles, reports, and evaluations each year. In fact, the ICJIA website features a database of over 1,000 agency publications. Check them out here:

[icjia.illinois.gov/researchhub/publications](https://icjia.illinois.gov/researchhub/publications)

Illinois, Nevada, North Carolina, and Pennsylvania, were selected to participate in the collaborative, which was supported by the U.S. Centers for Disease Control and administered by the National Governors Association.

IDHS was the state lead on the collaborative, with additional membership from the Illinois Office of the Governor and the Illinois State Police. The team engaged stakeholders to inform on and expand, deflection programs in Illinois.

## State Task Force Support

Staff provided significant research support to state task forces in FY24, including the:

Crime Reduction Task Force  
Domestic Violence Fatality Review Board  
Domestic Violence Pretrial Working Group  
Domestic Violence Task Force

Firearm Records Prohibitors and Records Improvement Task Force

Missing and Murdered Chicago Women Task Force

Traffic and Pedestrian Stop Data Use and Collection Task Force

## Data Collection & Reporting

Staff reported the following data in SFY24, based on legislative requirements:

- Data per the Illinois Reporting of Deaths in Custody Act and the federal Death in Custody Reporting Act.
- Law enforcement data per the Freedom from Drone Surveillance Act.
- Criminal history record checks for federally assisted housing applications per the Housing Authorities Act.

# Innovation & Digital Services

ICJIA's Innovation and Digital Services Unit is charged with improving and maintaining technological capabilities and infrastructure used by staff and external partners to more effectively share research, reports, and coordinate state-mandated activities. The unit manages ICJIA's security and privacy posture and development of systems intended to help Illinois public safety agencies collect and share information. These systems are continuously developed to support statewide efforts that inform criminal justice policymaking and enhance public safety initiatives.

## InfoNet Data Collection

InfoNet is a web-based data and case management system used by Illinois victim service providers to document services provided to survivors of domestic and sexual violence and generate standardized program and grant reports. InfoNet also serves as a grant monitoring tool and statewide data repository for ICJIA and other funding organizations, supporting strategic planning, resource allocation, and service improvement at state and local levels.

ICJIA operates and manages InfoNet, while system use and requirements are collaboratively governed with the Illinois Coalition Against Domestic Violence, the Illinois Coalition Against Sexual Assault, the Illinois Department of Human Services, Chicago Department of Family & Support Services, and All Chicago: Making Homelessness History. In FY24, InfoNet supported 63 domestic violence programs, 32 sexual assault centers, and five child advocacy centers. InfoNet data show these organizations provided more than 729,000 service hours to nearly 63,000 survivors and over 92,000 service hours to communities through trainings, systems advocacy, and outreach. In addition, they responded to 104,000 anonymous requests for help.

In FY24, ICJIA launched a new InfoNet website as a resource for those in the victim services field, including InfoNet users, and the general public. Visit [infonet.icjia.illinois.gov](https://infonet.icjia.illinois.gov).

Staff also implemented several key upgrades to InfoNet in FY24, including:

- Two new reporting tools meeting federal requirements from the U.S. Department of Housing & Urban Development and the Department of Justice's Office for Victims of Crime.
- A new Client Updates feature to track changes in survivor circumstances (e.g., employment status, income sources, health coverage) over time while engaged in services.

- A new Client Needs Assessment section that monitors survivor needs and how they are addressed over time.

Finally, in FY24, ICJIA secured a \$1 million FY25 state budget appropriation to expand the InfoNet team to better address evolving data collection, reporting needs, and technological advancements. InfoNet data play a critical role in grant-making and strategic planning for millions of dollars in public funding earmarked for survivors of domestic and sexual violence.

## ICJIA Web Presence

ICJIA's website, [icjia.illinois.gov](https://icjia.illinois.gov), is a frequent destination for criminal justice professionals, educators, and members of the public. In addition to providing easy access to the latest criminal justice information, the site opens the door to ICJIA's major areas of operation: federal and state grants, technical assistance, research, and technology.

The site provides enhanced navigation and accessibility to ICJIA news, research, and resources. It also allows access across multiple devices, including cell phones, tablets, and laptops. The site was developed using open source (mostly free) web development tools to keep maintenance costs down while offering enhanced web security.
